

# Healthy Considerations For Your Business Phone Systems

## 35%

of organizations in the U.S. upgraded their phone system in 2021.

## 50%+

in cost-savings when compared to traditional methods.

## Why make the switch?

- Simplified management in one easy-to-use platform.
- Pricing models that scale as your business needs it.
- Improve team productivity and client experience.

## Key Solutions:

- Cloud PBX: Your team can call, text, chat, initiate video calls, and even check virtual voicemail and fax from one window.
- Call Path Model: You don't need to purchase a hosted seat for every user, which can cut costs.
- Sip Trunking: Keep your existing hardware and eliminate landlines! This replaces your lines with the internet service you already have.
